

# YASHRAJ JHA

Software Developer — Problem Solving — Database Operations — Cloud Platforms

Email: yskjha@gmail.com LinkedIn: linkedin.com/in/yskjha Contact Info: +91 9324092965

Location: India

## Professional Summary

Software Developer with hands-on experience across API development, SQL optimization, production debugging, distributed cloud task execution, and scalable retail analytics systems. Strong ownership in delivering high-quality features, resolving critical production issues, and building reliable data workflows. Proven ability to work across cross-functional teams and deliver under tight deadlines.

## Skills

**Programming:** Python, Rust, SQL, REST APIs

**Databases:** PostgreSQL, MongoDB, DuckDB, Redis

**Cloud Platform:** Google Cloud Platform, Cloud Functions, Cloud Tasks, AWS

**Tools:** Git, Bitbucket, Jira, Grafana, Postman, SonarCloud

## Work Experience

### Software Developer

Dec 2024 – Present

Impact Analytics, Bengaluru

- Delivered 200+ tickets including production fixes, enhancements, and new user features across pricing automation products.
- Resolved 14+ critical production bugs and implemented 5 major change requests with zero rollbacks.
- Improved system reliability for different modules in the tool.
- Proposed long-term optimization solutions for client pricing scalability.
- Strengthened understanding of environment setup, schema design, and cloud task orchestration.

### Software Developer (Apprenticeship)

May 2024–Nov 2024

Impact Analytics, Bengaluru

- Built and optimized APIs, reducing key SQL query execution time from 40s to 7s.
- Collaborated with cross-functional teams to improve product reliability and client satisfaction.

## Projects

### Children's Growth — DHS Dataset

Preprocessing, data cleaning, statistical analysis, visualization using Python, and hypothesis validation to study nutritional impact on child growth.

### Sriram Sagar Dam Inflow Prediction (Fuzzy-LSTM)

Feature selection, multi-model comparison (LSTM vs HyperOpt vs Fuzzy-LSTM), and rainfall forecasting using deep learning.

## Education

**B.E. Civil Engineering**

BITS Pilani Hyderabad Campus (2020 – 2024)

**CBSE – Class XII**

Delhi Public School (2018 – 2020)

**ICSE – Class X**

Podar International School (2010 – 2018)

## Additional Information

**Courses:** DSA, OS, DBMS, ML, AI, Data Mining

**Languages:** English, Hindi, Marathi

**Interests:** System Optimization, Cloud Architecture, Problem Solving, Data Visualization
